

Leaf mobile

Make a leaf mobile to remind you of your trip to the woods

Leaf mobile

You'll need:

- Lots of leaves of different colours, shapes, sizes and textures
- A needle
- String or strong thread
- Several sticks of similar length

1 Carefully attach string or thread to each leaf, and tie them to the sticks.

2 Cross the sticks over in the middle and tie them together using the string.

Remember, trees hold on to what they still need, so only use leaves and sticks already on the ground

3 Hang up your mobile!

Make sure each string is a different length, so that the leaves hang at different heights.

Feel free to copy and share this for personal and educational use – and don't forget there are loads more brilliant activities to download on our website!
